STEAM DRIVER EXPERIENCE

Don't Just Ride It - Drive It!!

**EXPERIENCE THE CHALLENGE OF DRIVING A STEAM LOCOMOTIVE ON AN
AUTHENTIC VICTORIAN RAILWAYS BRANCH LINE WITH THE**

VICTORIAN GOLDFIELDS RAILWAY

Victorian Goldfields Railway is proud to offer you the opportunity to experience the thrill and excitement of driving a steam locomotive.

This Experience Is For Everyone!

Our Steam Driver Experience is for men and woman who enjoy the sights and sounds of a steam locomotive. Anybody can participate in the experience. You do not need knowledge of railways or any previous experience – we can teach you the basics of driving a steam locomotive.

All you need is to be over 21 and of reasonable health and fitness - it's that simple! Bring your partner and family to share in the fun.

Maldon is Australia's first notable town and offers antique and specialty shops, cafes, Carmen's Tunnel and many relics from the gold era, and is only 15 minutes from Castlemaine and 30 minutes from Bendigo.

About the VGR

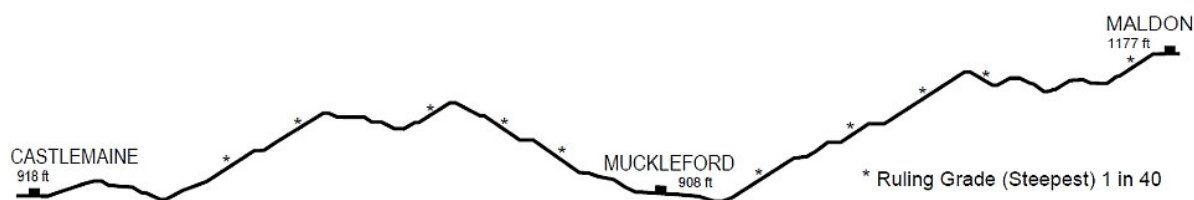

The Victorian Goldfields Railway is an authentic preserved branchline dating from 1884 and operates over a distance of 17 kilometres between Maldon and Castlemaine on the ex Victorian Railway's branchline. The Course includes a return run between Maldon and Castlemaine (34 kilometres).

After leaving Maldon, the line passes through open Box Iron-bark State forest dotted with numerous reminders of the gold mining era before opening out on grazing land around Muckleford Station. Forest is again encountered before reaching the urban area of Castlemaine. With a ruling gradient of 1 in 40 the line climbs some of the steepest gradients left in Victoria. You are sure to find the experience enthralling and a reminder of what it was like in the days of steam.

The Driver Experience Course:

As places for the experience are limited, we advise that you book early to avoid disappointment. Our course can be enjoyed any day on which we are not operating our Passenger services. Refer conditions of sale for bookings during fire danger period months (December - March).

Line Gradient Profile

What's Involved?

After your application form has been accepted you will be issued with the Course notes. You should read these notes before attending the course. We will go through the notes with you in the crew room prior to commencing the practical part of the experience. Your Locomotive for the day will be from our fleet used to operate our regular services, and we will ensure you receive training to a standard which will enable you to safely operate the equipment under supervision.

Clothing:

Each participant is asked to wear overalls or boiler suit, and safety boots or shoes preferably with steel caps. Jeans and an old work shirt would be a suitable alternative to overalls. Don't wear anything that needs to be kept clean!

Locomotives and Rolling Stock:
